

Micro Partes®

Plastic Fasteners & Rubber Components

MICRO PARTES DE MÉXICO

26 January, 2024

RoHS Certificate of Compliance

After careful evaluation of EU Directives on Restriction of Hazardous Substances (RoHS), Micro Partes de México hereby certifies that all product lines including conduit, tubing, liquid tight fittings, cordgrips*, strain relief bushings, bushings, plugs, wire positioning devices, wire connecting, terminating, IEC connectors, and all metal stamped products are fully compliant to the following EU Directives without exemption:

2011/65/EU RoHS (version dated 2011 June 8), Restriction of the use of certain Hazardous Substances in electrical, electronic equipment (recast) and Directive 2015/863

ELV (version dated 2000 September 18), End-of-Life Vehicle, 2000/53/EC

WEEE (version dated 2003 January 27), Waste Electrical and Electronic Equipment, Directive 2002/96/EC

Directive 2006/122/EC of 12 December 2006 for restriction of Perfluorooctane sulfonates
Additionally, none of our products nor packing materials contain any unconditionally banned substances as listed in the table below in concentrations exceeding the Maximum Trace Level (MTL):

Substance	Maximum Trace Level ⁽²⁾
Lead (Pb) ⁽¹⁾	0.1% by weight (or 1000 ppm)
Mercury (Hg)	
Hexavalent Chromium (Cr+6)	
Polybrominated Biphenyls (PBB)	
Polybrominated Diphenyl Ethers (PBDE)	
bis(2-ethylhexyl) phthalate (DEHP) butyl benzyl phthalate (BBP) dibutyl phthalate (DBP) diisobutyl (DIBP)	0.01% by weight (or 100 ppm)
Cadmium (Cd)	
Polyfluoroalkyl compounds (PFCs), i.e. > Perfluorooctane sulfonates (PFOS) and > Perfluorooctanoic acid (PFOA)	0.005% by mass (or 50 ppm)

(1) Lead, as an alloying element, is allowed up to 4.0% (40,000 ppm) in copper alloys, up to 0.35% (3,500 ppm) in steel, and up to 0.40% (4,000 ppm) in aluminum alloys.

(2) The MTL does not apply to applications for which exemptions have been granted to the EU Directives

Nickel-plated Brass parts are RoHS compliant with exemption 6c. See note (1) above. Regarding the use of decaBDE, which belongs to the group of polybrominated diphenyl ethers (PBDE's), none of our products contain any banned decaBDE's. Regarding the use of Perfluoroalkyl and polyfluoroalkyl substances, known as PFAS, Micro Partes de México does not use PFAS in any of the products sold to any of our customers. We anticipate this response satisfies your concerns regarding our products and requirements for RoHS and WEEE compliance information, if not, please contact us and we will do our best to provide additional information.

Warm Regards,
